Vibe Coding / Project Notes

zhangjiangmin0902@gmail.com | github.com/Jamie-zhang1 | heard-sheep.cloud

## Profile

Graduate student in logic at China University of Political Science and Law.

I use vibe coding to turn small ideas into live web pages and project notes.

This resume is intentionally simple and will be refined with the portfolio.

## Selected project notes

Heard Sheep - voice notes to editable task cards.

ProdDoc AI - project context to editable document drafts.

AI Decision Copilot - decision questions to options, reasons, and risk notes.

## Working method

Clarify the problem, build a live page, revise the writing and layout, record the process.

## Stack

Next.js, React, TypeScript, Tailwind CSS, AI APIs, PWA, Playwright.
